DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ozery (US 5892442).

Regarding Claims 1-2, Ozery discloses a two-way pager alarm system wherein claimed security system is met by alarm system 16 with sensors 32, 34, and 36; claimed two-way communication subsystem is met by wireless communication circuit 50; and claimed computing device is met by computer 22 utilized by monitoring center 14, see Col. 4 lns 15-65 and Col. 5 lns 9-48. Ozery further discloses that ReFlex™ communication protocol is utilized for functionality. Examiner notes that protocol conversion and matching is inherent in wireless communications systems as it is necessary for functionality.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lemons (US 6504479) discloses an integrated security system. Menard (US 2002/0177428) discloses a remote notification system.
